

Thanks to Donors

The work of the NJ Foundation for Aging is made possible by many family and corporate foundations as well as individual donors.

The Trustees, Advisers and Staff are grateful for this support which enables the Foundation to explore policy issues that impact aging well in NJ and to improve and enhance the connection of boomers, caregivers and seniors to community based programs through public education using a variety of formats and media outlets.

Please note we value the confidentiality of our donors and many request anonymity. Here you will see a list that we wish to acknowledge publicly.
